

OXYSTORM®

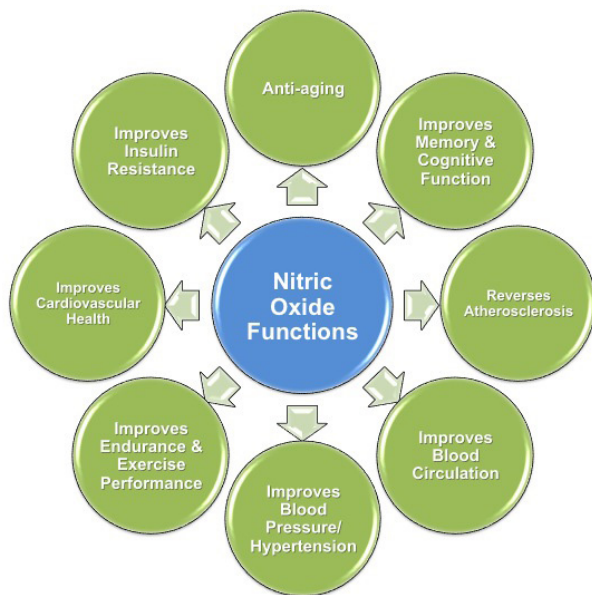

Stamina takes a big leap!

Red Spinach is not only full of potassium, iron and other phytonutrients, it also contains NITRATE to deliver a boost of nitric oxide. Naturally occurring NITRATE levels in red spinach are much higher than beetroot without the associated sugar content. NITRATE from red spinach boosts overall blood circulation and improves physical activity by increasing nitric oxide production.

Benefits of Oxystorm® at a glance:

- Enhances endurance and performance during exercise and weight training
- Improves overall blood circulation
- Helps with healthy cardiovascular function and blood pressure

Health Benefits of Nitric Oxide:

Developed through the partnership of **Orcas Naturals** and **Arjuna Natural Extracts Ltd.** Arjuna is a leading company specialized in creating botanical solutions supported by pharmacological evaluation and clinical studies in the dietary supplement, pharmaceutical and cosmetics industries.
